Dataset Metadata: Biometrics Data of Silver Oak

Dataset Description

This dataset contains biometric records of *Silver Oak (Grevillea robusta)* tree stems collected from a forestry research study. The dataset comprises of 25 columns and 2030 rows.

File Information

Item	Value
File Name	Biometrics Data of Silver Oak.csv
Rows	2030
Columns	25
File Type	CSV
Encoding	UTF-8

Column Descriptions

No.	Column Name	Description
1	StemID	Unique identifier for each tree stem section
2	Log	Log number taken from each stem
3	Part	Type of part measured (all “Stem”)
4	Layer	Measurement layer (D0–D7)
5	Leght_m	Stem segment length in meters
6	Dai_cm	Diameter in centimeters
7	Ww_kg	Wet weight in kilograms
8	Dw_kg	Dry weight in kilograms
9	%Moisture	Moisture percentage calculated from weights
10	Dw	Duplicate of Dw_kg (retained for original dataset consistency)
11	TreeGroup	Experimental group: Control / Treatment A / Treatment B
12	Region	Geographic zone of sampling: North / South / East / West
13	HealthStatus	Stem health condition: Healthy / Moderate / Stressed
14	MeasurementDate	Actual or simulated date of measurement (2023)
15	TechnicianID	Coded identifier for measurement technician
16	LogVolume_m3	Estimated log volume in m^3 using cylinder formula
17	DwToWwRatio	Ratio between dry and wet weight

No.	Column Name	Description
18	DiameterClass	Categorized diameter: Very Small / Small / Medium / Large
19	MoistureClass	Moisture categories: Low / Medium / High
20	IsOutlier	Flags outliers based on weight ratio distribution
21	Altitude_m	Elevation of sampling location (simulated)
22	Slope_deg	Slope angle of land at sampling location
23	SoilType	Soil classification (Clay / Sandy / Loam)
24	Exposure	Direction of exposure (N, S, E, W)
25	ReplicateID	Sampling replicate number for repeated measures
